Letter of Transmittal

His Honour, The Honourable Dr. Gordon L. Barnhart
Lieutenant Governor of the Province of Saskatchewan
Government House
4607 Dewdney Avenue
Regina, Saskatchewan
S4P 3V7

Dear Sir:

Letter of Transmittal

I have the honour to transmit herewith the seventeenth Annual Report of the Public Employees Disability Income Fund for the year ending December 31, 2007.

I have the honour to be, Sir,

Your obedient servant,

Rod Gantefoer
Minister of Finance

Letter of Transmittal

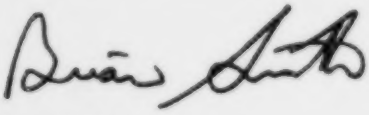
The Honourable Rod Gantefoer
Minister of Finance
Regina, Saskatchewan

Sir:

Letter of Transmittal

On behalf of the Public Employees Benefits Agency, I have the honour to transmit herewith the seventeenth Annual Report of the Public Employees Disability Income Fund for the year ending December 31, 2007.

Respectfully submitted,



Brian Smith
Assistant Deputy Minister
Public Employees Benefits Agency

Public Employees Disability Income Fund

Introduction

The Public Employees Disability Income Plan was established in 1978.

The Plan provides long-term disability benefits to employees of Executive Government, several Crown Corporations and various Agencies, Boards and Commissions as approved by the Lieutenant Governor in Council.

As at December 31, 2007 there were approximately 11,536 insured employees.

Western Development Museums
Workers' Compensation Board (The)

The Government of Saskatchewan with respect to the following individuals:

Assistant Chief Electoral Officer
Chief Electoral Officer
Children's Advocate
Conflict of Interest Commissioner
Information and Privacy Commissioner
Legislative Assembly (Members of the)
Members of the Public Service of Saskatchewan as defined by *The Public Service Act, 1998* excluding employees covered by the Saskatchewan Government and General Employees' Union
Ombudsman
Provincial Auditor
Rentalsman
Supervising justice of the peace, appointed under section 3 of *The Justices of the Peace, Act, 1988*

Administration

The Public Employees Disability Income Plan is self-insured and is managed by the Public Employees Benefits Agency, Saskatchewan Finance.

The Disability Income Plan Advisory Council has been established under Section 16 of *The Government Organization Act* and is comprised of an equal number of management and union representatives appointed by Minister's Order.

The Co-operators Life Insurance Company is on contract under an Administrative Services Only agreement to provide claims adjudication and benefit payment services to the Plan.

The Occupational Rehabilitation Group of Canada (ORGOC) and Northern Rehabilitation and Consulting Services Inc. (NRCS) provide rehabilitation services to the Plan.

Investment Management Services

The Minister of Finance is authorized to invest money of the Disability Income Fund in any class of investments authorized for the investment of moneys in the general revenue fund.

Co-operators Investment Counselling Limited invests the monies of the Fund under a contract to provide services. The Fund pays management fees to Co-operators Investment Counselling Limited.

Funding

Employees and employers pay premiums monthly. Employees contribute 0.48% of their basic monthly salary and employers contribute between 0.544% and 0.571%. For some plan participants the employer pays 100%.

Benefits

After serving a Qualifying Period of 119 calendar days, the gross monthly disability benefit is equal to 75% of pre-disability basic monthly salary.

Benefits are initially payable while an employee is occupationally disabled (unable to work at his/her own occupation). This period covers 24 months from the date of disability.

Thereafter, the employee must be totally disabled from any reasonable occupation for benefits to continue.

Benefits will continue under the total disability provision until the earlier of return to work, death, age 65 or retirement.

Premiums/Claims Experience

	Dec. 31, 2007	Dec. 31, 2006
Premiums	$7,524,066	$6,944,157
Claims	$8,235,012	$7,479,324
# Active Claims	272	258

Management's Report

To the Members of the Legislative Assembly of Saskatchewan

As members of management of the Public Employees Disability Income Fund, we are responsible for the preparation and presentation of the following financial statements in accordance with Canadian generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The significant accounting policies adopted in the preparation of the financial statements are fully and fairly disclosed in the financial statements.

The actuary has prepared a valuation report on the provision for claims payable of the Fund, made in accordance with accepted actuarial practices and using assumptions adopted by management. This report has been used in the preparation of the financial statements.

We believe the Public Employees Disability Income Fund has a system of internal control adequate to provide reasonable assurance that the accounts are faithfully and properly kept to permit the preparation of accurate financial statements in accordance with Canadian generally accepted accounting principles.

The Disability Income Plan Advisory Council was established in 1978 and is comprised of an equal number of management and labour representatives. It is responsible for reviewing policies and procedures governing the operations of the Disability Income Plan, address appeals where benefits have been declined by the insurance carrier and oversee management of the investment fund.

We enclose the financial statements of the Public Employees Disability Income Fund for the year ended December 31, 2007 and the Provincial Auditor's report on these financial statements.

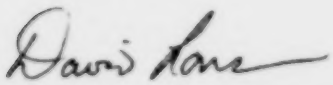
Actuaries' Opinion

With respect to the Public Employees Disability Income Plan, we have prepared an actuarial valuation as at December 31, 2007 for the purpose of determining the necessary actuarial information for financial statement reporting. In my opinion, for the purpose of this actuarial valuation:

- the data on which this valuation is based are sufficient and reliable;
- where applicable, the assumptions have been adopted as management's best estimates for accounting purposes and consequently I have not rendered an opinion on them; however, in my opinion, the assumptions are, in aggregate not unreasonable, when considering the circumstances of the plan and the purpose of the valuation; and
- the actuarial cost methods employed are appropriate.

Nonetheless, emerging experience differing from the assumptions will result in gains or losses which will be revealed in subsequent valuations.

This report has been prepared and this actuarial opinion has been given in accordance with accepted actuarial practice.



David R. Larsen, FSA, FCIA
Aon Consulting Inc.

Public Employees Disability Income Fund

Financial Statements

Year Ended December 31, 2007

Auditor's Report

To the Members of the Legislative Assembly of Saskatchewan

I have audited the statement of financial position of the Public Employees Disability Income Fund as at December 31, 2007 and the statements of operations and net assets, and cash flows for the year then ended. The Fund's management is responsible for preparing these financial statements for Treasury Board's approval. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2007 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Regina, Saskatchewan

Public Employees Disability Income Fund
Notes to the Financial Statements

December 31, 2007

1. Description of Fund

The Public Employees Disability Income Fund (PEDIF) is a special purpose fund used to account for the transactions of the Disability Income Plan (Plan). The Plan continues under subsection 64(2) of *The Financial Administration Act, 1993.*

This Plan is managed by the Public Employees Benefits Agency (PEBA) and provides a level of income protection during periods of occupational or total disability. Plan participants are certain employees of the public service of the Province of Saskatchewan and Saskatchewan Crown agencies, whose participation in the Plan has been approved by the Lieutenant Governor in Council. The Plan is administered under the terms of an agreement with the Co-operators Life Insurance Company.

Premiums
Employees and employers pay premiums monthly. Employees contribute 0.48% of their basic monthly salary and employers contribute between 0.544% and 0.571%. For some plan participants the employer pays 100%.

Effective June 1, 1994, the Plan began paying employers' contributions to the Public Employees Pension Plan (Pension Plan) for employees who belong to that Pension Plan and receive disability benefits. All participating employers are required to pay 0.06% of basic monthly salary for all its employees to the Plan to cover these contributions. The Plan includes the contributions to the Pension Plan in disability benefits expense and the additional contributions due from employers in premium revenue in the statement of operations and net assets.

In 2005, the Plan adopted a policy of full recovery of pension contributions. It pays the Pension Plan for employees receiving disability benefits. Under the policy, the Plan recovers the difference between the actual amount paid to the Pension Plan and the premium received. As a result, it refunds an amount equal to the employees' contribution to the Pension Plan for those employers whose employees receiving disability do not participate in the Pension Plan. Also, it charges additional premiums to employers when the employees' contribution to the Pension Plan is more than the premium received.

The refunds of the required premium, and the additional premiums, are recorded in premium revenue in the statement of operations and net assets.

Benefits
After a qualifying period of 119 calendar days, a disabled employee receives a gross monthly disability benefit equal to 75% of pre-disability basic monthly salary. Benefits are initially payable while an employee is occupationally disabled (unable to work at his/her own occupation). This period covers 24 months from the date of disability. Thereafter, the employee must be totally disabled from any reasonable occupation for benefits to continue. Benefits will continue under the total disability provision until the earlier of return to work, death, age 65 or retirement.

2. Significant Accounting Policies

These financial statements are prepared in accordance with Canadian generally accepted accounting principles. The following accounting policies are considered significant.

a) Premiums revenue

Premiums are recognized as revenue when due.

b) Disability benefits expense

Disability benefits expense is recognized commencing in the year the claim occurred.

c) Due from Co-operators Life Insurance Company (Co-operators)

According to the agreement between PEBA and Co-operators, Co-operators has established a segregated fund for the investment of PEDIF monies. The balance in this segregated fund represents a debt due from Co-operators to PEDIF and is represented by the investments held in the segregated fund.

All investments in the segregated fund are valued at fair value. The fair value of short-term notes is based on cost. The cost of short-term notes plus accrued interest approximates their market value. Canadian government and corporate bonds, Canadian and US equities, and non-North American equities are valued at the closing bid price. The market values of investments in foreign currencies are translated into Canadian dollars at the closing rate of exchange on the valuation date. The purchase and sales of investments, income and expenses are translated at the rate of exchange prevailing on the respective dates of such transactions.

d) Provision for claims payable

The provision for claims payable represents the present value of future payments arising from claims made prior to year-end. This provision includes an estimated amount for claims incurred but not yet reported at year-end. The provision for claims payable is determined pursuant to an actuarial valuation. Any resulting change in this liability is recognized as a revenue or expense in the statement of operations and net assets.

e) Cash

Cash consists of balances with the bank.

f) Use of Estimates

These statements are prepared in conformity with Canadian generally accepted accounting principles. These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. Differences are reflected in current operations when identified.

The primary measurement uncertainty arising from the use of estimates which may affect reported amounts, relates to the valuation of the provision for claims payable – see Note 5.

g) Financial instruments

Effective January 1, 2007, PEDIF adopted the recommendations of the Canadian Institute of Chartered Accountants (CICA) handbook section 3855 - Financial Instruments - Recognition and Measurement. Under this new standard, all financial assets and financial liabilities must be identified and classified. This classification determines how each financial instrument is measured. The impact of the adoption of these recommendations on the carrying values of the financial instruments in PEDIF's financial statements is insignificant.

The PEDIF's financial instruments and their classification are as follows:

Financial Instrument	Classification
Accounts receivable	Loans and receivables
Receivable from Co-operators Life Insurance Company	Loans and receivables
Accounts Payable	Other financial liabilities
Employer premium payable	Other financial liabilities
Payable to Co-operators Life Insurance Company	Other financial liabilities
Due from Co-operators Life Insurance Company	Held-for-trading

Loans and receivables and other financial liabilities are measured at amortized cost. Held-for-trading financial assets are measured at fair value.

The carrying value of financial instruments approximates their fair value. Changes in fair value are recognized in the Statement of Operations and Net Assets.

h) Recent Accounting Pronouncements

Effective January 1, 2008, the Plan is required to adopt the CICA handbook sections 3862 – Financial Instruments – Disclosures, and 3863 – Financial Instruments – Presentation. Section 3862 provides standards for disclosure of the risks arising from financial instruments to which the Plan is exposed, and how the risks are managed by the Plan. Section 3863 provides standards for the presentation of financial instruments and non-financial instrument derivatives. The Plan does not expect the adoption of these new standards to have a material impact on its financial statements.

3. Due from Co-operators Life Insurance Company (Co-operators)

The balance due from Co-operators is represented by investments held on behalf of PEDIF in a segregated fund. The investments held in the segregated fund as at December 31, 2007 consist of short-term notes, Canadian government and corporate bonds, Canadian and US equities, and non-North American equities. The investments are subject to interest rate risk, credit risk, market risk,

and foreign exchange risks. In accordance with the Plan's Statement of Investment Policy and Goals, PEBA limits these risks by regulating the aggregate and individual investments limits, by setting quality parameters of investments, and by setting other constraints.

The Co-operators does not remit the investment income to PEDIF; it reinvests the income, net of management fees, in the segregated fund.

4. Receivable from / Payable to Co-operators

According to the agreement between PEBA and Co-operators, Co-operators has established an account for receipt of PEDIF's premiums and payment of claims and administrative expenses. The balance in this account represents monies owing by Co-operators to PEDIF. A payable to Co-operators results when the claims and administrative expenses exceed the premium receipts.

5. Provision for Claims Payable

An actuarial valuation was performed by Aon Consulting Inc. as at December 31, 2007 and as at December 31, 2006 to determine the liability for the future cost of existing claims of disabled members. The valuation includes a provision for claims incurred but not yet reported.

The actuarial valuation of claims as at December 31 and the principal components of the change in actuarial valuation during the year, were as follows:

	2007	2006
Actuarial valuation, beginning of year	$61,525,000	$55,467,000
Interest on previous liability	3,075,000	2,773,000
Mortality and termination experience (gain)	(4,510,000)	(2,289,000)
Change in assumptions	(1,463,000)	-
New claims	14,950,000	12,561,000
Expected benefits payments	(7,679,000)	(6,987,000)
Actuarial valuation, end of year	$65,898,000	$61,525,000

The valuation is based on the following assumptions: 1) the allowance for claim termination is based on the Canadian 1988 to 1994 Termination Rates published by the Canadian Institute of Actuaries adjusted for experience; 2) the interest rate assumed is 5.5% (2006 – 5.0%); 3) the inflation rate assumed is 2.5% (2006 – 2.5%) for all future years.

The amount of benefits payable under the Plan may be increased on October 1 each year. The increase in benefits is indexed, subject to a maximum of 3% per annum, to the Consumer Price Index for the year ending on the immediately preceding July 1.

If the valuation assumed no indexing of benefits each year, the liability at December 31, 2007 would be $56,100,000 (2006 - $51,879,000).

The liability for claims is based on a number of assumptions about future events including: recovery and mortality rates, interest rate and expected benefits from other sources. The actual experience may vary significantly from the assumptions used.

The following illustrates the effect of changes in the interest rate, cost of living adjustment and recovery rates.

- a 1% change in interest rate equals a 6.3% change in the liability including the cost of living adjustment as determined by the consumer price index
- a change in the cost of living adjustment of 1% equals a 6.4% change in the liability
- a 10% change in recovery rates equals a 4.5% change in the liability

The provision for claims payable is long term in nature and there is no market for settling these obligations. Therefore, it is not practical to determine the fair value of the provision for claims payable.

6. Administration Expenses

PEBA administers PEDIF for a mutually agreed upon fee. PEDIF pays the annual administration fee to PEBA on agreed upon dates.

7. Management Fees

PEBA can invest money of the PEDIF in any securities authorized for investment pursuant to PEDIF's Statement of Investment Policies and Goals (Statement). PEBA has made an agreement with Co-operators to invest the monies of PEDIF consistent with the Statement. PEDIF pays management fees to the Co-operators for providing this service.

8. Legal

PEDIF is a party to a number of lawsuits initiated by claimants relating to disability benefits. The ultimate outcome of these lawsuits is not yet determinable. Accordingly, no liability has been recorded in these financial statements. Liabilities arising from the resolution of these lawsuits will be accounted for in the year the lawsuits are settled.

9. Investment Performance

PEDIF's investments are represented by the amounts due from Co-operators (see note 2c, 3). Following is a summary of the investment performance:

	2007	Four year annualized return
Actual (a)	1.3%	7.7%
Benchmark (b)	1.6%	6.8%

(a) The annual returns are before deducting investment expenses.

(b) The benchmark return is PEDIF's target rate of return for its segregated fund. The benchmark return is based on the performance of PEDIF's planned investment portfolio for its segregated fund.

10. Financial Instruments Risks

PEDIF is exposed to minimal credit risk from the potential non-payment of accounts receivable as most receivables are from government agencies and were collected shortly after year end. PEDIF's risks arising from the balance due from Co-operators Life Insurance Company are described in Note 3.

11. Budget

PEBA prepares the budget for approval by the Disability Income Plan Advisory Council. The 2007 budget was approved on March 14, 2007.

12. Related Party Transactions

Included in these financial statements are transactions with various Saskatchewan Crown corporations, ministries, agencies, boards and commissions related to PEDIF by virtue of common control by the Government of Saskatchewan and non-Crown corporations and enterprises subject to joint control or significant influence by the Government of Saskatchewan collectively referred to as "related parties". These transactions are recorded at agreed upon exchange amounts.

Due to the nature of PEDIF, substantially all premiums are received from related parties.

At year-end, the following amounts were due to/from related parties as a result of the transactions referred to above:

	2007	2006
Accounts receivable	$561,520	$564,332
Accounts payable and Employer premium payable	$284,613	$150,111

Other transactions with related parties and amounts due to/from them are described separately in the financial statements and notes thereto.
